

Radon One Sensor Quick start guide

Product number:
TDSPSRH4

1. Radon threshold indication
2. Averaging period for measurement (24hours, 7days, 30days)
3. Radon level
4. Battery level
5. Radon level units (pCi/L, Bq/m³)
6. Buzzer status (If this symbol is not visible, the buzzer is switched off)
7. Back Button
8. Accept Button
9. Forward Button

What does Aranet Radon One measure?

Radon gas

is tasteless, odorless, and hard to detect, posing serious health risks. It escapes from the ground into the air and can accumulate in your home. According to the [World Health Organization¹](#), radon is one of the leading causes of lung cancer. Since its levels can fluctuate regular radon monitoring is vital.

Aranet Radon One sensor offers real-time radon monitoring. It is the fastest sensor on the market – offering first measurements already after 10 minutes and refined measurement after 1h. The e-ink display and long battery life makes it ideal for continuous indoor air quality monitoring

Green

(Under 2.7 pCi/L)
Under 100 Bq/m³

Recommended by WHO as national reference for annual average residential radon concentration

Yellow

(2.7 pCi/L to 8.1 pCi/L)
100 Bq/m³ to 300 Bq/m³

Recommended by WHO as national reference annual average residential radon concentration even for countries with specific conditions

Red

(Above 8.1 pCi/L)
Above 300 Bq/m³

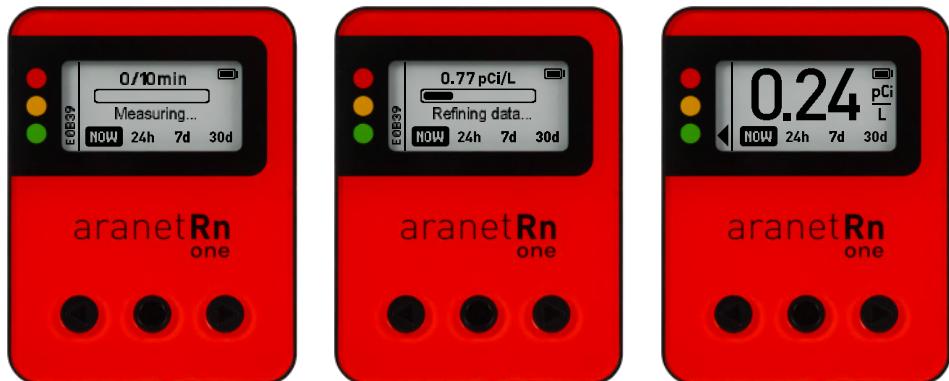

Prolonged exposure to such radon concentrations linked to health problems

Setting up the device

Insert the batteries, ensuring the correct polarity, and your Aranet Radon One sensor is ready to go! Press the Accept button to continue.

Please wait 10 minutes for the first measurement to appear.
It takes 1 hour to achieve full measurement accuracy.

Please wait

Ready to use

Ready to use

Push the Back and Forward buttons to select radon levels averaging period

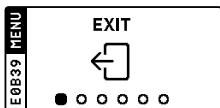

10 minutes

24 hours

7 days

30 days

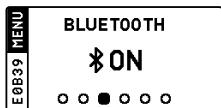

To enter settings, push the Accept button. In settings use the Back and Forward for navigation. In each particular setting by pressing the Accept button, you can

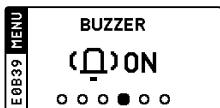

Exit to start screen

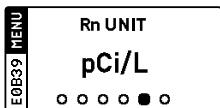

Reset data history

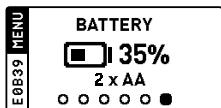

Switch bluetooth signal ON/OFF

Switch buzzer signal ON/OFF

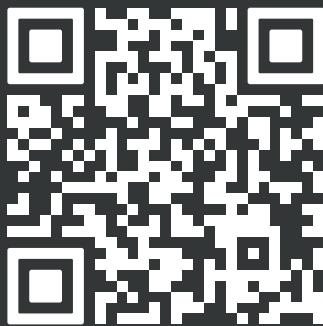

Change Radon measurement units

Check battery levels

Aranet Home app

Open and use phone camera to scan QR
to download the app or click the button
